Organic Natural Dyes

Note

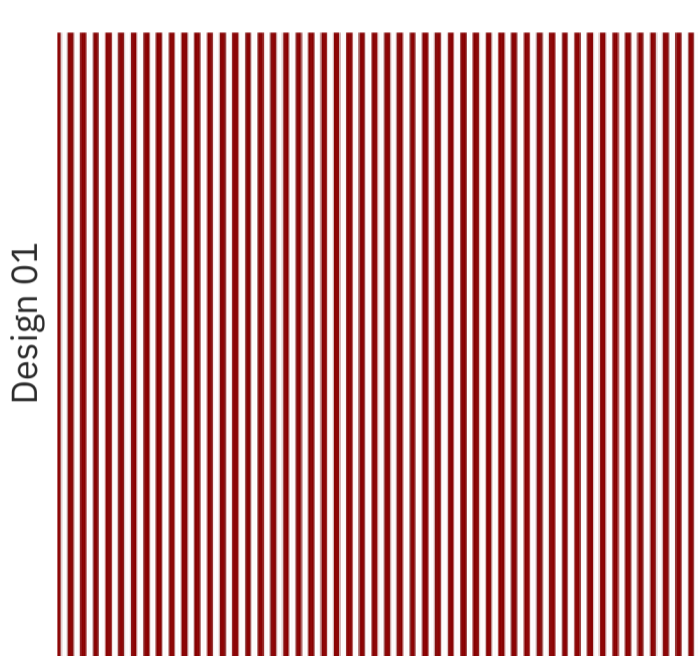

This digital preview represents 90-95% accuracy to the final piece. This document serves as a reference for the design, size and additional information.

How & Who

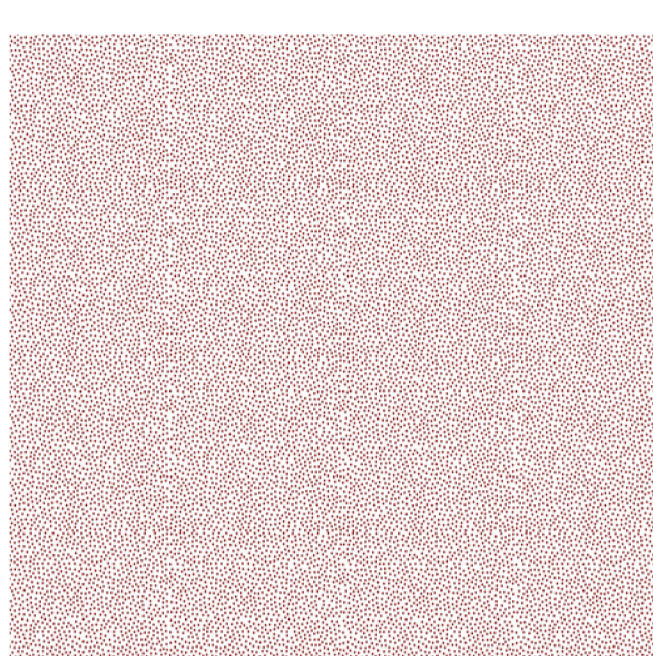

## Madder Series

This paper series is handmade from repurposed cotton textiles that were discarded from the garment industry that would otherwise be sent to a landfill, and it is naturally printed with beautiful bold, organic, vegan colors obtained from the root of madder plant.

All papers are handmade, hand printed and finally converted into products using organic materials. As a result of this handcrafted nature slight irregularities of color and print may occur.
